

## **ACS competes with Ferrovial for new Trans Texas Corridor contracts**

08.29.2006, 04:47 AM

MADRID (AFX) - Actividades de Construccion y Servicio SA is leading a consortium of investment funds and local companies to compete with Grupo Ferrovial SA in bidding for multi-million dollar Trans Texas Corridor (TTC) contracts, Cinco Dias reported, citing the Texan Department of Transport.

ACS' consortium includes Zachry and UBS Securities, and will be bidding for contracts to construct the TTC I-69, a multi-modal transport corridor which is expected to be longer than its TTC I-35 sister project, in which Ferrovial is heavily involved.

Zachry is in a consortium with Ferrovial in its contracts for the TTC 1-35. But Zachry was lured by ACS last year to compete in a consortium against the other Spanish constructor for a 1.5 bln usd contract to build a motorway linking Dallas with Fort Worth, also in Texas.
